Course Syllabus

Facebook for Beginners
CD225

Hours: In Class 3 Clinical Total 3

Description

Facebook provides a simple and accessible media which enables family and friends to reconnect, keep in touch, and have a presence on the Web without the necessity of building a website. It is relatively easy to use and offers some very useful applications and options. You can share photographs and hobbies, organize groups and reunions, and network with organizations and businesses. If you have an e-mail address and internet access, this course will guide you through the learning curve and before you know it, have you successfully networking on Facebook.

Prerequisites

Ability to use a keyboard and a mouse.

Learning Objectives

- Set up a Facebook account.
- Locate friends and family, and add them to their Facebook account.
- Post to their own Wall and also post to a Friend's Wall.
- Adjust and define privacy settings
- Setup and connect Facebook mobile app
- Upload photos from a PC to Facebook.

Teaching Philosophy

We believe that instructors, staff, and administrators have a shared responsibility to provide: 1) innovative course design and instruction; 2) a safe, learner-centered environment; and 3) an authentic learning experience.

Student Responsibilities

To ensure a quality and safe learning environment, students are required to follow the Post-Secondary Student Behavior policy #560. This policy can be found at www.mntc.edu/board-policies. Printed copies are available upon request.
