

MOORE NORMAN
TECHNOLOGY CENTER

Course Syllabus

Web Design
CD231

Hours: Clock 42 Clinical Total 42

Description

This interactive course is designed to instruct students in website design and construction. Students will learn a foundation of HTML 5 and CSS and be introduced to popular web design software such as Adobe Dreamweaver and Adobe Photoshop. Upon completion of the course, students will have a completed website project for their portfolio.

Prerequisites

cn150 - Intro to Apple or students should have experience with Apple/Macintosh operating systems, and have the ability to use a keyboard and a mouse.

Teaching Philosophy

We believe that instructors, staff, and administrators have a shared responsibility to provide: 1) innovative course design and instruction; 2) a safe, learner-centered environment; and 3) an authentic learning experience.

Student Responsibilities

*Please review the following link: Moore Norman's Adult Student Behavior Code and Policy. Students are required to follow the code when attending MNTC classes/activities. https://www.mntc.edu/sites/default/files/Post_Sec_Behavior-560_121814.pdf

Moore Norman Technology Center's School District Board Policies are provided online for your convenience. <https://www.mntc.edu/about-mntc/board-policies>
