Active Teaching and Learning (Online)
TTOLT001 - 59908

Instructor : Paula Hanger
Coordinator : Rick Spaulding
Contact Number :
Email : rick.spaulding@mntc.edu
Dates / Times : 02/08/21 - 03/04/21 M-Sa 12:00 am - 11:59 pm
Hours : In Class 3 Clinical Total 3

Description

This online course is designed to provide you with the teaching resources to engage the learners in your classroom. Recent research indicates that students who actively interact with a subject learn far more than those who passively take in information. Find tools to maximize your teaching skills so that students are learning and participate in the learning process. Reflect on how to implement active teaching and learning in your classroom.

Prerequisites

Proficient in computer skills

Learning Objectives

1. Identify teaching methods that encourage students to be actively and interactively engaged throughout a learning experience.
2. Create ideas to implement active teaching and learning into the classroom.

Teaching Philosophy

We believe that instructors, staff, and administrators have a shared responsibility to provide: 1) innovative course design and instruction; 2) a safe, learner-centered environment; and 3) an authentic learning experience.

Teaching Methods

We believe that instructors, staff and administrators have a shared responsibility to provide...

- innovative course design and instruction
- a safe, learner-centered environment
- an authentic learning experience

Evaluation Methods

Successful completion of this course will be determined by completion of all activities, journals and the module reflection.

Student Responsibilities

To ensure a quality and safe learning environment, students are required to follow the Post-Secondary Student Behavior policy #560. This policy can be found at www.mntc.edu/board-policies. Printed copies are available upon request.
